Epixel volunteer themselves with Kerala flood campaigns for the 10ᵗʰ anniversary!

Epixel becomes a role model in the IT industry with charity works and helping hands to rebuild Kerala from flood relief.

- Kerala throughout has been affected with a destructive flood.
- Numbers are high in terms of loss, both life, and mortgage.
- On August 17th of this month, Epixel completed its 10 years of success.
- The team, unlike previous years, hasn't celebrated in grant fashion indeed they helped the flood victims with bigger contributions and camp participation.

[**Palakkad, Kerala, India**] IT industry has seen its ups and down in the past 10 years and Epixel Solutions stood up without much shook in this period of time, and now on August 17^{th,} they have celebrated their anniversary in its best way. As per reports from the employees they have decided not to make the celebration grant, in fact, they stood up and lined up by reaching out to flood relief campaigns and charity support.

Epixel Solution Pvt. Ltd. stepped into the industry long back in 2008 in Palakkad, India as one of the finest and best IT company in the locality. Until that period, the locality hasn't seen any IT harmony, and Epixel pinned their spot in maps.

Recently, a sudden downpour during the monsoon period of time hit Kerala massively. Several people have lost their life and mortgage, it was flooding everywhere and everyone was calling out for help. People alongside with officials join hands together and saved a life that worth a million.

 "We all were a victim of such a horrifying act and we took an oath to do something from our side. And with a possible contribution from everyone, we managed to collect a good amount of money and provided the affected with it. Our team then united together and took the volunteering position in the camps. We have done something good, at least an effort to help, kudos to our team for this act and we can do such great things together." Says Mahesh, Sr. UI/UX Engineer & Camp co-coordinator, Epixel Solutions.

Epixel Solutions, a privately-held organization headquartered in Palakkad, expertized in web development, and services with consulting offices in USA, Hong Kong and Switzerland.
